DMI is a service unit reporting to the Provost

Our goal is to assist administrators, faculty, and staff in obtaining timely, accurate, and appropriate information from the university’s administrative databases.

Campus Profile
- Ten years of data summarized by department/college/campus
- Standard
  - Student Enrollment and Admissions
  - Budgets and Expenditures
  - Employee FTE and Headcount
  - Course Enrollments and IUs
- Strategic Profile
  - Campus-wide and College-specific Strategic Metrics
- Custom Reports, Dashboards and Charts

Student Data
- “Official 10-day” enrollments by college, student type, class, gender, ethnicity/race, state, Illinois county, country, etc.
- Retention Rates
- Graduation Rates

Course Information System

• All courses, sections, instructors and IUs since 1987
• Course history is tracked despite changes in rubric or number
• Helpful FAQ explaining course processing and accounting

Other DMI Resources

• Presentations
  • Management Information - Key to Strategic Planning
  • Using Data to Inform, Persuade, and Make Decisions
• Publications
  • Faculty Salary Studies
• Extract and summarize data upon request from many campus-wide computerized databases
• Create targeted mailing lists of employees or students; Build random samples of students or staff for survey research projects
